

Energy Efficiency Compliant Products - EEPLIANT3 (EU Grant Agreement N° 832558)

WP6: Concerted actions on new and arising issues posing challenges to market surveillance and enforcement
WP6, task 6.4 Product testing

Call for Tender for Test Laboratories

Appendix F, Q&A's

March 2022

Question 1, 8th March 2022

You have written “Questions must be received by Monday 15 March 2022, 17:00 CET” This day does not exist do you mean Monday 14 March or Tuesday 15 March or any other day?

Answer 1, 8th March 2022

Thank you for drawing our attention to this mistake. We mean Tuesday 15th March. New versions of the documents will be prepared with a history of changes.

Question 2, 15th March 2022

Would it be acceptable to have an IEC 62552-1/2/3:2015+AMD1:2020 accreditation or is the EN 62552-1/2/3:2020 mandatory?

Answer 2, 21st March 2022

The results of the testing will be used by market surveillance authorities to assess the compliance of equipment with regulations; results may have to be used to support legal action. For this reason, authorities must be able to demonstrate full legal confidence in results.

Therefore, accreditation for EN 62552-1/2/3:2020 as mentioned in the call for tender is a mandatory requirement.
